

The **Health Module** in Tracking At-A-Glance® (TAAG) allows users to record various health information about the clients being tracked. The module features an Overview screen summarizing the data in each of the sections listed below.

TAAG tracks:

- Medical History
- Medical Problems
- Medications
- Mental Health
- Substance Use
- Treatments
- Physicians
- Referrals
- Notes
- Documents

This module has been fully integrated into our interface, making every field available for reports.
