

The **Management Reports Module** in Tracking At-A-Glance® (TAAG) allows users to view statistical analyses and correlations across several categories, such as Caseload, Community Service, Education, Employment, Primary Demographics, and Referrals.

TAAG reports:

- Caseload task accomplishments by Case Manager
- Comparatives illustrating the productivity percentage of a Case Manager compared to the combined percentage for all Case Managers
- Analysis of correlations between any two categories of information pertaining to a resident's file
- Analytical data in charts illustrating the comparison of any two categories of information pertaining to a resident's file
- Task analyses for Corporate level users illustrating weighted and unweighted averages as well as composite factors

All reports can be saved and viewed at a later time.
